

## BAKERS, DON'T BLUFF

This Is Advice Given Bread Makers by C. A. King & Co.

American bakers should earn a fair profit, but they shouldn't bluff at the expense of the consumer. That is the warning to bread makers in a market bulletin issued by C. A. King & Co., a large Toledo firm. The tendency to alarm the public concerning imaginary conditions is discouraged by the Ohio company.

Reports by bakers that the president might direct an embargo against wheat exports is listed as a big bluff by King & Co. They point out in one short sentence that the president cannot take such action. That isn't all. The Toledo company reminds the bakers that conditions will permit exportation of 100,000,000 bushels of grain without danger of dire starvation in the United States. Also, King & Co. mention the foreigners prefer Manitoba wheats and this new crop will soon be available.

It is not the intention of the Toledo company to discourage the earning of a fair and reasonable profit by the bakers. Long profits for the farmers are also encouraged. But the bakers are urged to play their cards on the table and not bluff. The bread makers should encourage 10 cent loaves, the report states, but conditions are not nearly as serious as some of the reports have indicated and it is a very, very poor time to bluff.

"Farmers are entitled to all they can get," says the King & Co. report. "They work while many sleep and play. Dollar and a half wheat entitles bakers to an increased price for bread. Progress. Encourage 10 cent loaves. President cannot embargo exports. Stop bluffing. Our country can spare hundreds of millions more and not starve. Foreigners prefer Manitoba wheats. Their new crop will be available. Later Argentine, Australian and India will offer theirs."

That is the short, emphatic tip which the big grain company hands the bakers and the bread eating public. The article is headed "Bakers, Be Reasonable. Don't Bluff."

## WICHITA PAPERS

Feeling Effects of High Priced White Print Paper.

Wichita papers, in common with newspapers over the country are feeling the effects of the enormous increase in the price of white paper. The Beacon prints this announcement:

"The famine in print paper and the uncertainty of freight shipments have made necessary the strictest economy in the use of paper in every newspaper office in the United States. Smaller papers must be published until such time as a normal supply of white paper can be obtained from the paper mills."

"The Beacon is today forced to publish a smaller number of pages than is customary on Saturday. Consequently, several departments appear in abbreviated form or are omitted altogether. The Sunday church notices, the club page, comics and other features cannot be given their usual space."

## BRINGING UP FATHER

## AT THE THEATERS

The Iris.  
Theaetia Bara is cast in the drama "Sin" at the Iris today and tonight, one day only.

The title sounds wicked and as if the production would contain enough scandal to keep the whole world talking, but the picture really carries a heavy lesson and illustrates one of the greatest religious pageants of the world.

The big drama contains that which will interest all classes and prove instructive as well.

## The Cozy.

Charlie Chaplin.

Charlie Chaplin in his screaming success "A. M." at the Cozy today and tomorrow. Commonly called his "Million Dollar Jags."

Some of the big features scheduled to appear will soon be announced and special musical programs will be the order of the day.

Mr. Feltenstein will lead the orchestra at the matinee performance this afternoon.
